DENTISTRY

The Senior Dental Students of Loyola University of New Orleans, Louisiana, School of Dentistry, served as Externs assigned to Dentistry for periods listed:

June 20, 1954—July 10, 1954

F. Heck
E. A. Watkins
J. R. Whitehead

July 11, 1954—July 31, 1954

J. K. Berdon
W. D. Blesser
A. J. Bordelon

EXTERN STAFF—Continued

August 1, 1954—August 21, 1954

C. L. Gardner

E. C. Cohen

R. E. VanHook

August 22, 1954—September 11, 1954

I. Rappold

A. H. Stone

E. Traina

September 12, 1954—October 2, 1954

M. Brett

J. Calcote

R. Charbonnett

October 3, 1954—October 23, 1954

D. A. Keller

R. Smith

H. Snider

October 24, 1954—November 13, 1954

T. E. Cochran

M. Manuel

E. Conzelmann

November 14, 1954—December 4, 1954

T. Ross

R. Roy

L. Sansovich

December 5, 1954—December 25, 1954

E. Cook

W. Couvillion

J. Curl

December 26, 1954—January 15, 1955

J. L. Reese

V. Ringo

H. Valladares

January 16, 1955—February 5, 1955

L. Daughenbaugh

T. Flaherty

J. Gamble

February 6, 1955—February 26, 1955

W. A. Clark

F. Priede

A. E. Viener

DENTISTRY STAFF—Continued

February 27, 1955—March 19, 1955

R. Joffre
Charles Johnson
W. Ivy

March 20, 1955—April 9, 1955

R. Bardwell
J. Padgett
T. Phillips

April 10, 1955—April 30, 1955

G. Kramer
W. Krone
P. LeBourgeois

May 1, 1955—May 21, 1955

G. Hazlett
C. Lorio
J. B. McLavy

May 22, 1955—June 11, 1955

Edgar F. Arbour
R. R. Powell
Uriah T. Downs

June 12, 1955—July 2, 1955

B. Smith
P. E. Morris
P. M. Melancon

VISITING STAFF — LSU UNIT

July 1, 1954 — June 30, 1955

LSU UNIT

MEDICINE

Consultant

N. F. Thiberge, M.D.

Senior Visiting Physicians

W. R. Akenhead, M.D.
Oscar Blitz, M.D.
H. J. Dupuy, M.D.
F. A. Eigenbrod, M.D.
W. W. Frye, M.D.
J. E. Garcia, M.D.
H. Gardberg, M.D.
Edgar Hull, M.D.

L. Levy, II, M.D.
J. L. Locascio, M.D.
F. X. Marino, M.D.
L. A. Monte, M.D.
Louis Ochs, MD.
H. D. Ogden, M.D.
C. Rabin, M.D.
P. M. Tiller, M.D.

VISITING STAFF—Continued

Visiting Physicians

S. Antin, M.D.	M. Jumel, M.D.
G. Berenson, M.D.	T. Justice, M.D.
J. E. Blum, III, M.D.	Andrew Kerr, M.D.
H. Chastant, M.D.	J. T. Leckert, M.D. (Military Leave)
H. E. Dascomb, M.D.	Gordon McHardy, M.D.
A. A. Flores, M.D.	H. E. Meleney, M.D.
N. S. Gilbert, M.D.	I. Muslow, M.D.
B. A. Goldman, M.D.	K. G. Nix, M.D.
C. J. Gulotta, M.D.	I. Rosen, M.D.
S. Halle, M.D.	J. Salatic, M.D. (Military Leave)
R. B. Haspel, M.D.	J. H. Seabury, M.D.
D. W. Hayes, M.D.	J. J. Signorelli, M.D.
W. J. Hollis, M.D.	I. Singer, M.D.
A. L. Hyman, M.D.	S. W. Tuthill, M.D.
E. S. Hyman, M.D.	J. Walsh, M.D.
L. E. Johns, Jr., M.D. (Resigned)	R. White, M.D. (Resigned)
P. B. Johnson, M.D.	C. Womack, M.D.
	S. M. Wingo, M.D.

Assistant Visiting Physicians

L. D. Bultman, M.D.	R. J. McHardy, M.D.
R. Craig, M.D.	A. C. Plauche, M.D.
	J. B. Stotler, M.D.

Scientists

E. Bueding, M.D.	H. Saz, Ph.D.
N. Entner, Ph.D.	J. Trapold, Ph.D.

PREVENTIVE MEDICINE AND PUBLIC HEALTH

Senior Visiting Physician

R. L. Simmons, M.D.

Scientists

J. H. Miller, Ph.D.	J. C. Swartzwelder, Ph.D.

JOINT REPORT OF THE VICE-PRESIDENT AND THE DIRECTOR

The Honorable Robert F. Kennon
Governor of the State of Louisiana
Baton Rouge, Louisiana

Dear Governor Kennon:

The Vice-President of the Board of Administrators and the Director of the Charity Hospital of Louisiana at New Orleans submit the following report of the activities of the hospital covering the period from July 1, 1954 to June 30, 1955, inclusive.

The following members continued their services on the Board of Administrators during the past year:

Dr. J. Kelly Stone
Mr. George Van Kuren
Mr. Thomas C. Fischer
Dr. P. H. Jones
Dr. Edmund Connely
Dr. J. O. Weilbaeher, Jr.
Dr. N. J. Tessitore
Mr. A. L. Wetterhall
Mr. John Bowen
Dr. E. L. Leckert, Director

Mr. William August Worner's term expired and he was re-appointed. Also, he was re-elected Vice-President.

Mr. L. A. Millet was re-elected Secretary-Treasurer.

The Members serving on the standing Committees were as follows:

Finance Committee

Mr. A. L. Wetterhall, Chairman
Mr. John Bowen
Mr. Thomas C. Fischer
Mr. George Van Kuren

Medical Committee

Dr. J. O. Weilbaeher, Jr., Chairman
Dr. Edmund Connely
Dr. P. H. Jones
Dr. N. J. Tessitore
Dr. J. Kelly Stone

House Committee

Mr. George Van Kuren, Chairman
Dr. Edmund Connely
Dr. P. H. Jones
Dr. N. J. Tessitore
Dr. J. Kelly Stone

Mr. A. P. Richard, II served throughout the year as Administrative Assistant.

Mr. F. I. Williams, Jr. served throughout the year as Comptroller.

Dr. Robert O. Emmett was appointed as Assistant Director on August 1, 1954, to succeed Dr. Carl Blunk, Jr., who resigned on July 16, 1954.

Dr. A. A. Flores, Jr., was appointed Assistant Director on May 16, 1955, to succeed Dr. Robert O. Emmett, who resigned on March 1, 1955.

HOSPITAL BUILDINGS

Main Building—This building contains a total of 2,963 beds devoted to patients' care—divided as follows: Medicine, Surgery, Premature Infant Section, Pediatrics, Gynecology, Radium, Orthopedics, Urology, Eye, Ear, Nose and Throat, Dermatology, Obstetrics, Nurseries, Dental Surgery, Psychiatry and unassigned beds.

The other departments are as follows: Operating Rooms (including two surgical amphitheatres), Delivery Rooms (including Obstetrical Operating Rooms), Pathology Department, Anesthesia Department, Diagnostic and Therapeutic X-Ray Department, Cardiology Department, Physical Therapy, Medical Records Library, Electroencephalographic Department, Social Service Department; operating the following Clinics: General Surgery, Plastic Surgery, Thoracic Surgery, Neuro-Surgery, Vascular Diseases, Tumor, Fracture, Orthopedics, Obstetrics, Post-Partal, Gynecology, Male and Female Urology, Special Therapy, Obstetrical Special Therapy, Glaucoma, Male and Female Medicine, Refraction, Ear, Nose and Throat, Dental Surgery, Dental (Caries), Psychiatry, Scrapping, Hematology, Dermatology, Allergy, Clinic Cystoscopy, Pasteur, Alcoholic Rehabilitation and Diagnostic Pain Clinic.

This building also contains a non-sectarian Chapel, Catholic Chapel, Dietary Department (with dining rooms for doctors, nurses and employees), Visitors' Food Service for White and Colored, Bakery Shop, Linen and Sewing Rooms, Auditorium, Post Office, Hospital Laundry, Hospital Library, Occupational Therapy, Business Offices and Administrative Offices covering every phase of the Administration of the Hospital.

The 13, 14, 15, 16, 17, and 18th floors of the building are the living quarters of the intern and resident physicians attached to the Hospital. The 19th floor is devoted to recreation rooms for doctors assigned to the institution.

Colored Tuberculosis Building—The Colored Tuberculosis Building was renovated at a cost of \$79,172.00. As a result, the facilities were expanded by ten beds and the interior is now as modern and attractive as a new building.

Dibert—The John Dibert Tuberculosis Building was provided with new aluminum awnings throughout its four stories, and electric ice making machines were installed to replace the old fashioned ice storage chests, to the greater relief and comfort of the patients.

All other hospital buildings are in good condition, repairs and improvements having been made where necessary during the year.

DEPARTMENTAL UNITS

Radiology Department—In the Department of Diagnostic Radiology during the past year, 151,594 patients were examined and 326,530 films processed. Fluoroscopies numbered 8,217.

In the Department of Therapeutic Radiology, 59,779 patients were treated by Roentgen Therapy and 258 by Radium.

Pathology Department—736,231 laboratory tests were made during the past year and 1,824 autopsies performed.

Twenty-six students were admitted to the School of Medical Technology, 24 completed their training, and 25 are still training in this approved school.

Dr. Emma Moss, Director of this Department, was chosen President-Elect of the American Society of Clinical Pathologists.

The American Medical Association inspected the Charity Hospital School of Medical Technology and found no deficiencies, as a result, the School received an "Excellent" rating.

Dr. Moss was awarded the Frank S. Billings Award of the American Medical Association for the most out-standing exhibit at their annual convention in San Francisco. The exhibit was devoted to fungus diseases and represented advanced techniques of diagnosis developed at Charity Hospital.

The Bio-Chemistry Laboratories were enlarged to approximately twice their former size at a cost of \$2,706.00 by the Hospital's maintenance forces.

Dietary Department—1,260,806 meals were served to personnel, 2,615,370 to patients and 902,934 special diets prepared. In addition, 101,747 formulae were prepared and served throughout the past year.

This department graduated twelve dietetic interns on August 31, 1954, making a total of 123 interns who have completed the course since its inception in 1944.

Rehabilitation Unit (Alcoholic)—Dr. Kenneth C. Ritter, who had been in charge of the Alcoholic Rehabilitation Unit for more than a year, resigned effective December 31, 1954, because he was no longer able to devote the necessary time to its proper operation. Dr. Rufus H. Craig was appointed to succeed him on January 1, 1955.

Artificial Kidney Station—With the assistance of the L.S.U. Medical School, the hospital instituted a new department with the installation of an Artificial Kidney. This is the first piece of equipment of this type to be installed in this area, and in the first few months of operation it is credited with having saved six lives which would otherwise had been lost.

Nurses—Within the last year, 110 were graduated from the School of Nursing and 145 students were admitted for training.

During the past year, the Nursing Department had in its employ the following personnel to render nursing care to the patients:

Professional Nurses

183	Supervisory Staff
	(Religious and Lay)
187	General Duty Staff

Non-Professional Employees

171	Licensed Practical Nurses
565	Nurses Aides II and III

Charity Hospital formed an affiliation with the Orleans Parish School Board for the training of colored practical nurse students on the hospital premises during their clinical training period.

Out-Patient Clinics—During the past year, 111,636 patients were treated in the Admitting Rooms of this Hospital, 119,003 patients were seen in its Accident Rooms, and 462,521 visits were made by 89,508 patients in the Clinics.

Blood Bank-Anesthesia-Gas Therapy—These Departments are under the supervision of Dr. John Adriani.

In the Department of Anesthesia, there were 24,000 anesthetics administered throughout the hospital including the accident room, radium therapy department and obstetrical services.

Additional equipment was purchased, an iron lung and a new E & J resuscitator was installed in the Recovery Room. The Department acquired a Bennett Positive pressure unit, a unit for hypothermic anesthesia,

a Liston Carbon Dioxide Analyzer and an Oximeter, for use in thoracic and cardiac surgery.

The School of Anesthesia graduated 38 Nurse Anesthetists. Six residents completed their training and accepted excellent positions in Anesthesiology elsewhere.

The Blood Bank collected 20,000 units of blood in the Donor Station and dispensed 19,000 units of blood for transfusion. The reaction rate from transfusion was unusually low, being less than 2%, as far as can be ascertained in an institution of this size.

The Gas Therapy Department conducts the administration of oxygen and other gaseous therapeutic agents in the hospital. In addition, this department is responsible for the maintenance of all equipment necessary for the conduction of inhalation therapy.

Physical Therapy—Mrs. Marion B. Stewart, Technical Director of the Physical Therapy Department, retired on June 30, 1955, after thirty consecutive years of devoted and efficient service. Mrs. Stewart was presented with a letter of commendation from the Board of Administrators for her years of loyal service and regret upon her departure.

Operating Rooms—14,388 major operations and 476 caesarean sections were performed.

Admissions—During the year, 21,041 white and 49,714 colored patients were admitted to the hospital, a total of 70,755 admissions.

Personnel Department—The total number of active employees as of June 30, 1955, were 3,196.

Charity Hospital was able to accept the minimum salary rates prescribed by the State Civil Service Pay Plan on July 1, 1954, and on that date employees' salaries were brought to these minimums. Employees' salaries in excess of these minimums, but not equal to a step in the range, were adjusted to step. Other salary increases were authorized at this time.

A new Kardex System was purchased and all personnel records were transferred to the new files. The acquisition of an Addressograph machine has facilitated the semi-monthly preparation of employee meal tickets.

Sister Antonia—Sister Antonia O'Donoghue, Sister Superior at this Institution, was transferred to duty elsewhere.

It was with the greatest reluctance that the Board of Administrators learned of Sister Antonia's transfer, since she had contributed invaluable service to the patients and the administration by her tireless efforts in behalf of both. A suitable resolution was spread upon the minutes of the Board and copies were sent to Sister Antonia and to her superiors.

Sister Paula—A bronze plaque in honor of the memory of Sister Paula, who had served as Operating Room Supervisor for 46 years, was dedicated on Friday, April 23, 1955, in the Delgado Operating Suite.

Capital Improvements—The following improvements were made throughout the hospital:

1. The facilities of the Psychiatric Department were expanded to absorb the patients who were formerly cared for at the City Hospital for Mental Diseases.
2. The Board approved the retubing and complete renovation of boilers Number 2, 3, and 4 located in the Power House of the Hospital at a cost of \$13,000.00.
3. Construction was completed on the new Virus and Rickettsial Disease Laboratory which was completed at a cost of \$32,680.00 under a grant by the Federal Government.

4. Two new Cadillac and two new Ford Ambulances were placed in service.
5. The filing facilities of the Medical Record Library were expanded at a cost of \$5,061.40. Thus providing badly needed shelf space for the ever increasing volume of current medical records.
6. \$18,970.00 worth of new laundry equipment was purchased to replace worn out equipment, and \$1,680.00 was spent repairing old equipment.
7. A new roof was put on the Sisters' Home.
8. With the completion of this work, five of the hospital's six boilers have been renewed and may be counted on for at least fifteen years additional service.

Federal Government—In August 1954, the Hospital received from the Federal Government the sum of \$52,000.00 as a Research Grant for the "Investigation of the Causation of Infectious Diseases of Obscure Etiology."

Record Librarian—Mrs. E. V. Cooksey, Medical Record Librarian of the Hospital, was elected to the Presidency of the American Medical Association of Medical Record Librarians in October 1954.

Attorney—Mr. Julius C. Pearlstine resigned as Attorney for the Board of Administrators of Charity Hospital and was succeeded by Mr. Kermit Frymire.

The Board of Administrators commended Mr. Pearlstine for the efficient, conscientious and diligent manner in which he handled the legal affairs of the Hospital during his tenure of office, and accepted his resignation with extreme regret.

Orleans Parish Grand Jury—In March 1955, the Orleans Parish Grand Jury inspected the Hospital and found it to be "a very efficiently operated institution" and commended Dr. Leckert, his Staff and the Board of Administrators.

Psychiatric Unit—The Board of Administrators assumed the care of the patients formerly in the custody of the City Hospital for Mental Diseases. This involved the expansion of the hospital's psychiatric facilities by adding forty beds to the psychiatric unit and the removal of the neurology service to other quarters in the hospital. Dr. Wilmer C. Betts was employed by the hospital to direct these services and the psychiatric staffs of the two medical schools cooperated fully.

Dr. Betts resigned as Director of the Psychiatric Unit on March 1, 1955, and was succeeded by Dr. William C. Super.

Dr. Betts' resignation was accepted with the greatest reluctance, and a motion praising his splendid service during the difficult period of absorbing the patients from the City Hospital for Mental Diseases was adopted by the Board.

Investment Program—The investment program was revised to increase the return on Endowment funds by placing trust funds in federal insured building and loan associations located throughout the State of Louisiana.

The amount invested in Louisiana Building and Loan Associations totaled \$476,000.00 and materially increased the annual revenue on these funds.

Donations—The Charity Crib Auxiliary presented to the Pediatric Department a check for \$445.00 for the purchase of an incubator to be used in that area of the hospital.

Mr. Henry Dupre'—Mr. Henry Dupre' was awarded the first annual Philip McCabe Memorial Award for his many years of service to the patients of Charity Hospital, by his continued efforts to lighten their hospital stay and more particularly for his efforts in connection with the annual Christmas and Easter parties for patients.

Endowment Funds—The Hospital received a Cash Bonus of \$45,-200.00 for signing an oil and mineral lease on its fractional interest in the Jefferson Parish lands of the Edward Wisner Estate. The lease also included substantial rental and royalty fees to cover the development work which will be done by the British-American Oil Producing Company.

The Board of Administrators approved the action of the Henderson Fund Committee in the leasing to the Cotton Trade Warehouses, Inc. of the Union Press Warehouse, in which the hospital owns a fractional interest, for a period of fifteen years at a monthly rental of \$1,133.33.

The Board approved the extension of the lease of Mr. John Tobin on the property at 5050 Canal Street for an additional five years at an increase rental of \$250.00 per month.

Medical Staff—The Rules and Regulations of the Visiting Staff of the Hospital were revised and modernized to conform with changes in the requirements of the local and state medical and dental practices act.

Mr. A. P. Richard, II, Administrative Assistant to the Director, reported that an evaluation of the quality of medical care rendered the patients of Charity Hospital by the medical and surgical staffs, the performance of the hospital, in every instance, was materially superior to the national average of all accredited, acute, general hospitals and left no doubt as to the eminence of Charity Hospital's position in the medical world.

ACKNOWLEDGEMENTS

For the one hundred and twentieth consecutive year the Daughters of Charity have continued to perform their excellent services to the hospital in many capacities. To Sister Antonia and her successor, Sister Margaret, we owe more appreciation than we can repay for their tremendous assistance and unfailing cooperation.

To the ladies of the community who have volunteered their services and rendered valuable assistance, under the guidance of Miss Florence Jennings, we would like to extend our sincere gratitude.

These ladies contributed more than 50,000 hours of service to the hospital and were of invaluable assistance in many departments.

We want to express appreciation to the Deans of the two medical schools, Dr. W. W. Frye, Louisiana State University, and Dr. M. E. Lapham, Tulane University, and Dr. E. J. Richard, Head of the Independent Unit. They have worked with us and have thus helped to create a close harmony between the hospital and the medical schools.

We wish to express our thanks to the Charity Hospital Guild, under the supervision of Miss Nellie Boudreaux, for their constant and invaluable aid in making surgical dressings and other supplies for the hospital and patients.

The National Council of Jewish Women have continued their generous contribution of financing the Pediatric Recreational Program and provided the able direction of Mrs. Amy Harrison to successfully coordinate this facility.

The Visiting, Resident and Intern Staffs have worked untiringly and well in caring for our patients and richly deserve our gratitude.

There are others, too numerous to mention here, who have assisted the hospital in numerous ways, to whom we would like to extend our gratitude and recognition.

Respectfully submitted,

WM. AUGUST WORNER,
Vice-President Board of
Administrators

E. L. LECKERT, M.D.,
Director

COMMENTS ON OPERATIONS

Fiscal Year July 1, 1954 to June 30, 1955

Cost of operation for the fiscal year ended June 30, 1955, compared with previous fiscal year increased \$821,570.33, or 9.17%, as evidenced by the following comparative analysis:

	FISCAL YEAR		Increase	% Increase
	1954-1955	1953-1954		
Salaries	\$6,507,249.06	\$5,763,747.47	\$743,501.59	12.90
Food	961,194.60	919,981.99	41,212.61	4.48
Drugs and Surgical Supplies	1,393,184.38	1,293,100.34	100,084.04	7.74
Other Operating Expenses	774,834.74	802,892.34	28,057.60*	3.49*
Repairs and Maintenance Expense ..	141,851.46	177,021.77	35,170.31*	1.99*
	<u>\$9,778,314.24</u>	<u>\$8,956,743.91</u>	<u>\$821,570.33</u>	<u>9.17</u>

Comparative Statement—Means of Financing

	1954-1955	1953-1954	Increase	Decrease
State Appropriation ..\$	9,665,885.00	\$8,439,514.00	\$1,226,371.00	
Special Legislative Appropriation		250,000.00		250,000.00
Legislative Deficiency Appr.	100,000.00	220,431.00		120,431.00
Federal and Other Grants	184,782.93	135,831.29	48,951.64	
Bond Liquidation Fund	281,598.42	284,930.93		3,332.51
	<u>\$10,232,266.35</u>	<u>\$9,330,707.22</u>	<u>\$1,275,322.64</u>	<u>\$373,763.51</u>

Expenditures during the fiscal year were made and accounted for in accordance with the provisions of the State Budget Act.

All obligations incurred and due by the Hospital as of June 30, 1955, are current and accounted for and liabilities set up therefor.

At the close of the fiscal year June 30th, there is shown an unencumbered surplus in the Operating Funds of \$1,065.58 subject to be returned to the State Treasury in accordance with the General Appropriation Act (Act 271).

As of June 30, 1955 there were 3,178 employees on the payroll as compared with 3,148 as of June 30, 1954, an increase of thirty. Labor turnover for the year equaled 50.91%.

Following our customary practice, we have taken advantage of all cash discounts in accordance with the terms of purchase contracts. Cash discounts earned during the year amounted to \$32,063.10. During the year we paid \$43,404.03 in State Sales Tax.

During the year we received from the U. S. Surplus Commodities Corporation food evaluated at market value amounting to \$39,687.05, which value is not included in the cost of food consumed. This compares with \$30,911.75 received the previous year, an increase of \$8,775.30.

Accounts Receivable

Miscellaneous Accounts Receivable of record as of June 30, 1954, viz- \$9,216.61 are current obligations. The amount of \$41,435.85 due by the National Foundation for Infantile Paralysis represents charges against the State Parish Chapters and is guaranteed by the Foundation. All obligations due are considered 100% collectible.

Insurance

Adequate insurance has been provided on all Hospital properties. All Employees and Professional personnel are covered by Workmen's Compensation Insurance. Premiums paid during the year amounted to \$45,462.42 as compared with \$36,299.48 paid the previous year.

The cost of Pharmaceuticals, Medical and Surgical Supplies used as compared with the previous fiscal year increased \$100,084.08 or 7.18% accounted for as follows:

	FISCAL YEAR			
	1953-1954	1954-1955	Increase	Per Cent
Pharmaceuticals	\$ 626,213.56	\$ 602,689.80	\$ 23,523.76	3.76 %
Medical and Surgi- cal Supplies	595,581.59	534,912.82	60,668.77	10.19 %
X-Ray Films and Photo- graphic Supplies ..	171,389.23	155,497.72	15,891.51	9.27 %
	<u>\$1,393,184.38</u>	<u>\$1,293,100.34</u>	<u>\$100,084.04</u>	<u>7.18 %</u>

Comparative Cost—Patients Care

	1953-1954	1954-1955	Increase	Decrease
Patients Admitted	66,389	70,755	4,366	
Patient-Days	842,872	902,934	60,062	
Cost per patient-day	\$9.79	\$10.04	.25	
Patient Visits (Clinics)	554,819	524,863		29,956
Cost per patient-visit	\$1.27	\$1.35	.08	

Sundry Revenue

Collections during the year for services rendered ineligible patients, fees, licenses, etc., amounted to \$244,322.75, as compared with \$196,642.83 received the previous year, an increase of \$47,679.92, as follows:

	1954-1955	1953-1954	Increase	Per Cent
Patient Services	\$131,214.39	\$ 96,893.91	\$34,320.48	35.42 %
Licenses	29,287.08	23,605.00	5,682.08	24.07 %
Fees	61,112.08	55,493.68	5,618.40	10.12 %
Sundry	22,709.20	20,650.24	2,058.96	9.97 %
	<u>\$244,322.75</u>	<u>\$196,642.83</u>	<u>\$47,679.92</u>	<u>24.25 %</u>

During the fiscal year 3,814 ineligible patients were billed for medical services rendered in the aggregate amount of \$261,208.02, compared with 3,233 billed the previous year for a total amount of \$191,867.57. As provided by General Appropriation Act 271 of 1950, all collections of Sundry Revenue were transferred to the Louisiana State Treasurer.

Contractual Commitments—\$176,975.53

	6/30/55	6/30/54
Contractual Services	\$ 4,768.49	\$ 2,925.00
Materials and Supplies	118,286.12	50,844.55
Equipment—Capital Outlay	52,874.66	37,310.38
Major Repairs to Buildings and Equipment		33,791.00
State Sales Tax and Transportation (Est.)	1,046.26	2,030.99
	<u>\$176,975.53</u>	<u>\$126,901.92</u>

Commitments represent Purchase Orders issued prior to June 30, 1955 applicable against the fiscal years' appropriations for delivery subsequent to June 30, 1955.

Capital Expenditures

Expenditures for additional and replacement of worn out Equipment out of Operating Funds amounted to \$65,326.85, as follows:

Current Years' Appropriation	\$28,102.65
Prior Years' Appropriation	37,224.20
	<u>\$65,326.85</u>

Equipment purchases out of Trust Funds during the year amounted to \$4,059.72.

See detail statement Sch. 1-C of equipment purchases.

Visitors Food Service Department

The operation of the Cafeteria is financed by a separate Legislative Appropriation of \$7,500.00 as a Revolving Fund, subject to be returned to the States General Fund should the operation of the Department be discontinued.

Profits earned during the fiscal year as compared with the previous year was as follows:

	1954-1955	1953-1954
Commissions earned on Vending Machine Sales	\$26,159.51	\$23,800.57
Deduct:		
Loss on Food Store Operation	4,049.51	2,040.25
Net Profit for Fiscal Year	<u>\$22,110.00</u>	<u>\$21,760.25</u>

Trust Funds

During the fiscal year various donations and grants to the Hospital were received as follows:

Permanent Funds	\$ 44,736.63
Restricted as to Use	5,468.50
Federal Research Grant	68,607.00
Unrestricted as to Use	566.00
Special Projects Funds	17,430.14
	<u>\$136,808.27</u>

Income received from investments of Trust Funds during the fiscal year amounted to \$160,025.49, as follows:

	Restricted	Unrestricted	Total
Interest	\$17,074.94	\$ 56,605.18	\$ 73,680.12
Rent	21,640.00	9,994.21	31,634.21
Royalties		3,793.07	3,793.07
Leases	12,500.00	24,063.73	36,563.73
Dividends	808.74	13,545.62	14,354.36
	<u>\$52,023.68</u>	<u>\$108,001.81</u>	<u>\$160,025.49</u>

Expenditures out of Trust Funds during the fiscal year amounted to \$116,054.31.

	Restricted	Unrestricted	Total
Salaries	\$ 1,754.00	\$ 2,100.00	\$ 3,854.00
Indigent Patients Welfare	5,905.08	3,783.54	9,688.62

	<u>210,177.50</u>	<u>224,235.52</u>	<u>434,413.02</u>

Total Investments	<u>\$2,506,146.65</u>	<u>\$647,903.38</u>	<u>\$3,154,050.03</u>
-------------------------	-----------------------	---------------------	-----------------------

Compared with the previous fiscal year investments in Securities increased \$64,608.76, from \$3,089,441.27 to \$3,154,050.03.

Bond Liquidation Fund

During the fiscal year \$312,000.00 of Bond obligations were retired and total interest on bonded indebtedness amounting to \$204,124.50 was paid.

As authorized by the Board of Administrators \$281,598.42 was transferred to the Operating Funds during the fiscal year.

The balance of \$423,000.75 in the funds as of June 30, 1955 provides a reserve for the retirement of Bonds and Accrued Interest on Bond obligations due and payable as follows:

August 1, 1955	\$217,035.75
October 15, 1955	205,965.00
	<u>\$423,000.75</u>

Respectfully submitted,

L. A. MILLET
Secretary-Treasurer

PERSONNEL DEPARTMENT REPORT**July 1, 1954 — June 30, 1955**

Total number of active employees as of June 30, 1955: 3178

Charity Hospital was able to accept the minimum salary rates prescribed by the State Civil Service Pay Plan on July 1, 1954 and on that date employees' salaries were brought to these minimums. Employees' salaries in excess of these minimums, but not equal to a step in the range, were adjusted to step. Other salary increases were authorized at this time.

At the request of the hospital, original allocations of positions which were in error have been corrected. This has been done largely through the untiring efforts in our behalf of Mr. Henry Rauber, Mrs. Lorraine Mule' and Mr. James Sandifer, the members of the New Orleans Office of the Department of State Civil Service. Continuing audits of positions have been made by other representatives of the Department of State Civil Service. Certain studies have resulted in the creation of new classes. Other studies have resulted in adjustments in salary ranges. These changes in ranges made it necessary for the hospital to once again temporarily deviate from the pay plan in several classes.

A new Kardex system was purchased and all personnel records were transferred to the new files. The acquisition of an Addressograph machine has facilitated the semi-monthly preparation of employee meal tickets.

Service ratings were prepared on all employees again this year. The present rating system has proved unsatisfactory in many ways. It is a chore to administer and engenders a great deal of ill-will throughout the house. A plan is being formulated by the State Personnel Council to submit to the Department of State Civil Service recommending changes in the present system which will rectify these difficulties. This office is taking an active part in developing this plan.

The Personnel Department has enjoyed the cooperation of the Director, the Staff and the Department of State Civil Service in all respects.

Respectfully submitted,

CHARLES C. STURTEVANT,
Personnel Director

ANNUAL REPORT OF THE SISTERS' DIVISION**For the Fiscal Year July 1, 1954 to June 30, 1955**

The joint activities of the Nursing Service Department, the School of Nursing, the Dietary Department and the Housekeeping Department, all centered in the Sisters' Division, have functioned satisfactorily during the past fiscal year. Detailed reports will be submitted by the Sisters directing these departments; therefore, this will be a brief and general report.

Inasmuch as the Sisters' Division is charged with the responsibility of the patient from the standpoint of nursing care, diet and environment, joint planning activities are most essential. A joint committee from this group met and outlined certain goals which they were desirous of achieving during the current fiscal year. Among these were the following:

1. Reestablishment of the inservice training program for nurse aides. The heavy patient load and the shortage of professional personnel made it imperative that other types of personnel be trained to function more effectively in meeting the nurse shortage. A graduate professional nurse employed in the Nursing Service Department is now conducting an inservice training program for nurse aides, with excellent results and much satisfaction to the supervisors of the various patient areas.
2. Establishment of an affiliation program with the Orleans Parish School Board for the training of student practical nurses. This program was begun in January, 1955, and is now functioning smoothly and effectively, and has become a source of supply for the employment of trained practical nurses.
3. Rearrangement of sixth floor facilities so that additional storage space could be assigned to the Pharmacy. Guild room supplies were moved so that the space formerly used by the guild for storage could be utilized by the Pharmacy.
4. Reorganization of the nursing program in the Premature Infant Center. An organization chart was drawn up and channels of authority clearly outlined. Duties and responsibilities of all personnel were revised. A program of observation and experience in Premature Infant Nursing was begun for professional nurses and a number of nurses benefited by this program during the year.
5. Continuing efforts of the School of Professional Nursing to educate qualified persons who will be a credit to Charity Hospital and to the nursing profession. High educational standards are being met, and the school is working toward national accreditation in the near future.
6. Providing better meal service for patients and personnel. The Dietary Department has continued its efforts to provide hot meals to all hospital patients, and is continually striving to improve the high standard of meal service which is offered to both patients and personnel.
7. Continuing efforts of the Housekeeping Department to maintain a safe and sanitary environment for patients and personnel. This department is to be commended for the degree of success which they have achieved.

In closing, I am pleased to report that all of the goals outlined above were achieved during the current fiscal year with varying degrees of success. In achieving our goals, we have kept in mind our one primary goal—to improve patient care at Charity Hospital.

Respectfully submitted,
SISTER MARGARET,
Director Sisters' Division

Miscellaneous Personnel

.....	16
Total	1,432

At the beginning of this fiscal year, the administrative staff of the Nursing Service Department and the floor supervisors met to consider the many urgent needs and problems which hampered the administration of good nursing service to the patients. It was deemed advisable at this

time to formulate a definite program of activities in order to ensure proper consideration of problems and needs, adequate planning, and implementation of plans.

The problem of adequately staffing the services with nursing personnel was and is of primary importance. Two services, Male Medicine and Premature Infant Center, were without supervisors, and it was necessary for the graduate nurses on the Nursing Service Office staff to directly administer and supervise these two divisions. Because of the difficulty in securing a qualified supervisor, the involvement of federal funds, and the many changes in administrative and teaching personnel, efforts were concentrated on the reorganization of the nursing services and nursing education programs within the Premature Infant Center. At the request of the Director of Charity Hospital, the hospital nursing consultant of the Maternal and Child Health Section of the Louisiana State Health Department began a program of consultation services on nursing in the Center. Her reports and recommendations contributed greatly to the improvement in the administration, nursing services and nursing education in the Premature Infant Center.

Since 1947, a very active and worth-while program of in-service training of nurse aides had been in effect. The program was terminated in January, 1954, and on-the-job training became an additional responsibility of the head nurse on each unit. This system resulted in great differences in the training of nurse aides, conflicting interpretations of hospital policy and nursing procedure, and job dissatisfaction among the participants. At the request of the head nurses and supervisors, the nurse aide in-service training program was reactivated in January, 1955, and conducted by the graduate nurses on the Nursing Service Administrative Staff. Three separate groups were given the course by the end of this fiscal year with a total of 154 nurse aides II completing the training. Each group attended thirty-six classes of one hour periods, and each trainee was observed for performance of the nursing procedures taught in the classroom. This is a continual program which provides in-service preparation for newly employed nurse aides II, and which assures safe and effective service through additional training of all employed nurse aide II when indicated.

A major change in the present system of organization and physical setup in the Central Service Division was begun in order to provide a better quality of service and more adequately meet the needs of the patient. The third floor Central Service has been incorporated into the Psychiatric Division and is now under the supervision of the nursing supervisor of the psychiatric service. The eleventh floor Central Service was moved to make room for a new Pathology Service section, and this floor is being serviced by the main Central Service on the twelfth floor.

Revision of nursing service policies and procedures to meet changing needs in the care of patients is a continuing activity. Some of the major nursing policies and procedures were revised, reprinted, and distributed throughout the Nursing Service Division. Requests frequently made by the nursing service divisions for these revisions indicate a real need for more effective work in this area, but the small administrative staff in the Nursing Service Office permits only a limited amount to be accomplished.

In the early summer of 1954, the Charity Hospital Board of Administrators, approved the affiliation of student practical nurses from the Booker T. Washington High School with the Nursing Service Depart-

ment of Charity Hospital for clinical teaching and practice. The students receive four months of preclinical instruction including the nursing arts at the Booker T. Washington school and thirty-two weeks of clinical practice on the wards at Charity Hospital. A monthly stipend of \$10.00 is given to each student by Charity Hospital during the thirty-two weeks affiliation period.

This affiliation began on October 1, 1954, and classes were admitted every four months thereafter. In June, 1955, an agreement was reached that provided for two classes of affiliation a year with the number of students in each class not to exceed twenty-two.

During this fiscal period, twenty-one Booker T. Washington High School student practical nurses completed the clinical period at Charity Hospital, and eighteen were employed on the Charity Hospital Nursing Service staff.

Practical Nurses Program:

Purposes

1. To aid in preparing men and women to help meet the nursing needs of the hospitals and other agencies engaged in the care of the sick.
2. To actively participate in the education of those persons interested in practical nursing who would be lost to the field of nursing, because of a lack of professional school requirements.

Organizational and Administrative Changes

At the beginning of the 1954 fiscal year, the Board of Administrators voted to terminate the Charity Hospital School of Practical Nursing effective January 31, 1955. The students enrolled in the school at the time, were allowed to complete the course.

Of the 23 Charity Hospital students who entered the September, 1953 class, 14 graduated.

Of the 20 Charity Hospital students who entered the January, 1954 class, 9 graduated.

The following students graduated from the Charity Hospital School of Practical Nursing during the fiscal year, took the Louisiana State Board Examination, and received a license to practice in the State of Louisiana:

Date of Graduation	Date of Examination	Percent Licensed
June, 1954	October 27, 1954	100%
September, 1954	October 27, 1954	100%
January, 1955	April 15, 1955	90%

A total of 168 practical nurses were graduated from the Charity Hospital School of Practical Nursing during the four and a half years the school was in operation.

ANNUAL REPORT
of the
CHARITY HOSPITAL SCHOOL OF NURSING

July 1, 1954 — June 30, 1955

The School's efforts have been devoted this year primarily to improving the teaching and supervision of students in the clinical practice area. It was found necessary to select areas for clinical experience in the majority of services, and for the teaching staff to assume more responsibility for the supervision of student practice. This has been accomplished in all services except Pediatrics, Obstetrics, and Communicable Diseases.

State Board of Nurse Examiners Annual Report

The Educational Supervisor of the State Board of Nurse Examiners made a one-day visitation of the school on June 15, 1955. She reviewed the current curriculum with the instructional staff and visited two clinical areas of the hospital, obstetrics and pediatrics.

General recommendations concerning the clinical practice areas were to:

1. provide means for insuring privacy of labor patients when receiving nursing care
2. provide individual utensils for care of patients in the pediatric department
3. increase the number of handwashing facilities in the pediatric department
4. increase the amount of nursing supervision in the pediatric department, especially on the evening and night shifts

Recommendations specific to the school of nursing were to include in clinical practice, experience in the out-patient department and in community agencies.

Commendation was made for improvement in the teaching program, for improved personnel policies for the students, and for improvement in scores made by students on the licensing examination.

Accreditation

The School is making preparations to apply for accreditation by the National Nursing Accrediting Service, Inc. The recognition that such accreditation gives seems necessary not only that proper recognition be given to a department of Charity Hospital but also, that recruitment of students may be assured.

Educational Personnel and Facilities

Personnel—of the thirty instructors, 83% meet the Louisiana State Board of Nurse Examiners requirements for faculty appointment. Those not meeting the requirements are attending college on a part-time basis. The 27% turnover although high, is accounted for largely with resignations demanded by home responsibilities. There are five vacant positions.

Facilities—classroom and office space is adequate but air-conditioning seems indicated to combat the noise and poor ventilation.

Student Welfare

Residence—the total number of residents in the home is 458; of these, 263 students are Charity students, 150 are affiliating students, 45 are anesthesia students, four faculty, and three hostesses. In July 1955, forty-five beds on the second floor were assigned to the School of Anesthesia students.

ANNUAL REPORT OF THE DIETARY DEPARTMENT**July 1, 1954 — June 30, 1955****ACTIVITIES AND ACCOMPLISHMENTS**

Twelve dietetic interns were graduated on August 31, 1954, making a total of 123 interns who have completed the course since its inception in 1944.

The stipend for dietetic interns was increased from \$10.00 to \$35.00 monthly for the class entering September 1, 1954.

In January, 1955, the 8 week affiliation with Baptist Hospital for Pay Cafeteria and Private Tray Service was discontinued because of a reorganization of their dietary department.

In March, 1955, a 6 week affiliation was organized with Ochsner Foundation Hospital for 4 weeks Pay Cafeteria and two weeks Private Tray Service, in addition to which a 2 week Private Tray Service was begun in the Doctors' and Nurses' Infirmary, so that the intern would receive the necessary training in this area.

The Household Storeroom was moved across the hall to the unit formerly occupied by the Housekeeping Department, in order to provide additional space for the construction of a new Dining Room to accommodate the increased employment of Colored Nurses, Practical Nurses and Volunteers. All new equipment—steam table, tables and chairs—were purchased to furnish this Dining Room.

Government inspection of all meats, fresh fruits and vegetables was inaugurated, and arrangements made for deliveries of fruits and vegetables to be made on Tuesdays and Fridays instead of daily. Commodities are now ordered by code number instead of by name.

A new Bread Slicing Machine was purchased and the old Slicer was overhauled and kept on hand in case of an emergency.

The Receiving Platform was enlarged and a new Platform Scale was installed in the Fall of 1954. A new 60 pound Scale was purchased for the Vegetable Room.

One table from the Doctors' Dining Room was redone with Panelyte to test its durability, and if it proves satisfactory all the tables will eventually be refinished.

The Office Furniture and Walls of Sister Theresa's Office were repainted, as well as the Walls of the Main Kitchen and Dining Rooms. New screens were made for the windows in the Kitchen, and the Garbage Elevator was redone.

Three new Ovens were purchased for the Kitchen in the Student Nurses' Residence.

Three Reed Pedestal Fans were purchased for the Main Kitchen and Storeroom.

The Bakery Revolving Oven and the Heavy Duty Hobart Mixer in the Kitchen were both overhauled and put in first class working condition.

A wall was erected in the dish machine room of the Colored TB Unit to separate it from the outside entry of the building.

New china dishes were purchased for the Doctors' and Nurses' Infirmary, and cloth tray covers and napkins are now used on the trays in place of paper ones.

A new routine was begun in February in the formulas for the Pre-mature Nurseries. Each infant is supplemented with 1 cc of a vitamin mixture consisting of .3 cc Tri Vi Sol and .7 cc of an ascorbic acid solution. This mixture supplies 5,000 units of Vitamin D; 2,500 units of Vitamin A; and 75 mg. of ascorbic acid.

The Nutrition Clinic began a series of Group Therapy Classes for obese patients in January, 1955, sponsored by the Louisiana Heart Association. These classes were continued for 16 successive weeks and were well attended by patients of varying ages from 18 to 65 years. During the year 58 Student Nurses rotated through the Nutrition Clinic Service, where they obtain experience in planning a week's menu for a Hospital patient and calculating for cost to suit his budget.

The following list constitutes the bulk of patients instructed by the Nutrition Clinic:

Diabetic Classes	932 Patients
Diabetics attending Metabolic Clinic	9,960 Patients
Obstetric Classes	14,979 Patients
Individual Instruction—New—All types	3,925 Patients
Individual Revisits	5,796 Patients

The Dietary Staff is continuing its work with Tulane and Louisiana

State Universities Medical Staffs in conducting special dietary studies. Comparative figures of meals served are listed below:

	1953-1954	1954-1955
Personnel Meals	1,284,063	1,260,806
Patient Meals	2,398,935	2,615,370
Total Meals	3,682,998	3,876,176
Special Diets Served	841,872	902,934
Infant Formulae Prepared	76,021	101,747

MEAL COSTS:

Food	\$ 974,276.19
Wages	370,322.50

ANNUAL REPORT
of the
HOUSEKEEPING DEPARTMENT

July 1, 1954 to June 30, 1955

The turnover of Personnel in the course of the year amounted to 118 as follows: 86 resignations, 30 removals and 2 deaths.

Additional duties delegated to the department this year was complete Housekeeping in the Obstetrical unit and Delivery Section. Six positions were transferred from Nursing Service, and four additional positions were created: One Custodial Supervisor and three Custodial Workers I.

In January germicidal disinfection was done to walls, ceilings, floors and furniture in the Graduate Nursery of Premature Center to combat diarrhea infection. In May the same procedure was done in both White and Colored nurseries on 10th floor.

Two hundred and two mattresses were renovated: 159 mattresses in patient units and 43 in Personnel quarters.

The Alpha Pest Control Co. and National Window Cleaning Company performed their services satisfactorily and according to contract.

In the Salvage Division \$2,081.93 worth of salvage material was sold to salvage dealers.

The following Linen replacements were made:

2,248	Bed spreads
8,940	Sheets for adult beds
6,440	Sheets for Juvenile beds and treatment tables
1,000	Bassinet sheets
6,380	Pillow Cases
8,388	Bath towels
8,528	Huck towels
13,142	Wash cloths
2,161	Kitchen towels
6,492	Patient gowns
4,015	Pairs pajamas
2,793	Patient robes
5,540	Bassinet pads
19,517	Diapers
2,192	Baby wraps
647	Hamper bags
60	Trash carrier bags
104	Ambulance stretcher pads
2,535	Aprons
222	Doctors operating gowns
1,004	Doctors scrub shirts

944	Doctors scrub trousers
1,125	Nurses 1st gowns
600	Nurses 2nd gowns
663	Nurse Aide gowns
517	Service smocks
11,856	Surgical towels
9,454	Sterile wraps
560	Pairs scuffs
249	New pillows
321	New blankets
314	Adult bed rubber sheets
92	Crib rubber sheets

Respectfully submitted,
SISTER CLARISSE,
Director of Housekeeping

ANNUAL REPORT**July 1, 1954 — June 30, 1955****PREMATURE INFANT CARE CENTER****I. ADMINISTRATIVE ACTIVITIES**

The Premature Infant Center Committee was reorganized to include an obstetrical representative and this Committee met five times under the chairmanship of the Director. Much time and effort spent by this Committee on administrative problems led to accomplishments which were very beneficial. Several subcommittees were activated to work out specific problems related to the care of premature infants.

The Medical Policy and Procedure Manual was completely revised with assistance as indicated from the obstetrical and nursing disciplines. Much work has been done on revisions and further development of nursing policies and procedures related to the Premature Infant Center.

Enlarged and improved office facilities were assigned to the Medical Director, making room for improved office facilities for the nursing staff of the Center.

Plans were developed and approved for a follow-up survey of selected infants discharged from this Center.

During this fiscal year, the nursing service in the Premature Infant Center functioned under the direct supervision of the Nursing Service Office because of the inability to recruit a qualified supervisor. By September of this year the day, afternoon and night assistant supervisors were appointed, and a system of rotation of personnel by shifts and through nurseries was established in order to more adequately meet the nursing needs. Following the February 7, 1955, meeting of the Committee on the Premature Infant Center with representatives from Children's Bureau, Washington, D.C., and Dallas, Texas, a change in the organization of nursing service and nursing education was effected. This change provided for a fulltime nursing supervisor to administer the nursing services of the Center, an assistant day supervisor to be responsible under the direction of the supervisor for nursing education programs, and a clinical instructor responsible to the Director of the School of Nursing for clinical education of professional student nurses. At the request of the Director of the Hospital, the Hospital Nursing Consultant of the Maternal and Child Health Section of the Louisiana State Health Department began a program of consultation services on nursing in the Center in March 1955. Her reports and recommendations contributed greatly to the improvement in the administration, nursing services and nursing education in the Center.

II. SERVICE ACTIVITIES**A. Medical**

Special efforts were made to carry out improvements in medical policies particularly related to environmental oxygen levels provided in the care of premature infants. Two infants with birth weight less than 1500 grams sustained permanent defective eyesight from retrolental

fibroplasia in comparison with six such affected infants in a similar number of surviving babies in this weight group during the previous year. A complete analysis of mortality statistics is given in Section V.

B. Nursing

In May 1955 an organization chart for the nursing personnel in the Premature Infant Center was made. Duties, responsibilities and qualifications were revised and placed in operation for the following nursing service personnel:

Graduate Nurse 4	Nurse Aide 2
Graduate Nurse 3	Custodial Worker 2
Graduate Nurse 2	Central Service Worker 2
Graduate Nurse 1	Typist-Clerk 1
Clinical Instructor	Clerk 1

C. Medical-Social

The Medical-Social Supervisor of the Premature Infant Center has continued to assist families of premature infants cared for in this Center. Particular efforts have been made to coordinate the services at Charity Hospital with other community and state agencies. An analysis of the nature of case work done is given below.

Statistical Data (cannot be unduplicated counts because of nature of work)

A. CASE LOAD	TOTAL.....	2,107

4. Number of Families Referred by Patient Group		409
C. DIVISION BY PARISH		
1. Number of Families Served from Orleans Parish		1,079
2. Number of Families Served from Other Parishes		1,028
3. Number of Families Served from Other States		0
D. NATURE OF SERVICES	TOTAL.....	2,849
1. Interpretation to Family and Family Group		1,208
2. Interpretation to Other Social Agencies		85
3. Interpretation to Interested Individuals and Physicians		1,546
4. Children Referred for Foster Home Placement		0
5. Children Referred for Adoption		7
6. Number of Home Visits Made		3

D. Dietary

Specific improvements were made in the technic of vitamin supplementation in formula preparation. Improvements in technics and records related to bacteriological control of formulas were instituted.

III. EDUCATIONAL ACTIVITIES

A. Medical

1. Postgraduate, Formal and Informal

General orientation and informal discussions as indicated were provided many physicians who visited the Center throughout the year. Records of this type of educational activity maintained during the first 6 months of 1955 revealed that a total of sixty-two physicians were conducted through the Center. Of forty-three from the United States, most were from states other than Louisiana. The nineteen foreign physicians represented such countries as Canada, Cuba, Japan, India, Africa and four South American countries.

Several programs in the care of premature infants were provided by the medical and nursing staff of the Premature Infant Center for a group of pediatricians attending a formal Tulane Pediatric Postgraduate Course.

The Medical Director of the Premature Infant Center provided five hours of lectures and nursery demonstrations to a class of students in the Division of Graduate Medicine at Tulane Medical School working toward their Masters' degree in public health.

2. Staff

Regular training and experience in the care of premature infants were provided for approximately twenty new pediatric residents. Added to the program this year were specific plans to provide rotating interns with experience and training in this Center. Approximately forty such rotating interns received this training.

3. Undergraduate

The Medical Director of the Premature Infant Center conducted approximately five formal lectures and demonstrations to undergraduate students at both Louisiana State University and Tulane Schools of Medicine.

B. Nursing

Under the guidance of the Hospital Nursing Consultant of the Maternal and Child Health Section of the Louisiana State Health Department, a program of orientation and observation in the care of premature infants for graduate professional nurses was developed and put into effect. Four nurses benefitted by this experience, one of whom was sponsored by the World Health Organization. Two nurses are scheduled for July of the coming fiscal year and there are ten applications pending. It was also arranged for two senior students in the basic nursing program at Charity Hospital to attend this planned program with the graduate nurses. This experience was evaluated and recorded as part of each student's clinical experience. Assistance in this activity was provided as indicated by the Medical Director, the Medical-Social Supervisor and the Dietitian assigned to the Premature Infant Center.

In addition to this program, informal orientation and conferences on the care of premature infants was given by the nursing staff to five public health nurses, three nurses from foreign countries, and two groups of professional nursing students who visited the Center with their nurse instructors.

Two courses, six weeks in duration, in premature infant nursing were conducted by the LSU Department of Nursing Education during this fiscal year. Three students were enrolled in each of these courses. Three of these graduate nurses were from Louisiana, two from Missouri and one came from Hawaii.

C. Medical-Social

The Medical-Social Supervisor has continued to participate in the teaching programs related to the Premature Infant Center. New educational activities were carried out in relation to developing observational periods for nurses and medical students and in relation to a special comprehensive medicine teaching program in the Tulane School of Medicine. The social worker participated in an annual educational conference concerned with care and follow-up of prematures for public health nurses of the New Orleans Health Department. In addition, the social worker participated with the Hospital Nursing Consultant of the State Health Department in an educational conference conducted by a regional parish health unit.

In March 1955 the Medical-Social Supervisor attended a "Workshop on Short Term Contact With Patients" held at Tulane University.

D. Dietary

The Dietitian in charge of the Formula Room provided instruction in nutritional problems and formula preparation related to premature infants for twelve dietary interns during the fiscal year. In addition, she participated in other ongoing educational activities of the Premature Infant Center.

IV. INVESTIGATIVE ACTIVITIES

Members of the Department of Pediatrics of the Louisiana State University School of Medicine began and completed a most significant investigation related to sulfonamide administration in newborn and premature infants. A satisfactory system for determining dosage of sulfonamides in newborn infants resulted from this investigation.

The Tulane Departments of Pediatrics and Biochemistry were successful in obtaining a significant long-term grant for development and evaluation of microtechniques, especially biochemical, which may be particularly valuable to future investigations planned in this Center.

The Committee on Retrolental Fibroplasia of the Southern Eye Bank was successful in obtaining continuation of support from the National Institute of Health for studies related to oxygen needs of premature infants. Plans have been developed for several studies to begin during the next fiscal year.

Respectfully Submitted,

W. T. NEWSOM, M.D.
Medical Director

SECTION V. STATISTICAL TABLES

Table I

Admissions, Survivals and % Survivals of Infants Admitted to the Premature Infant Center, Delivered at Charity Hospital of Louisiana at New Orleans, July 1, 1954, through June 30, 1955, by Race, Sex and Weight.

ANNUAL REPORT POLIOMYELITIS CENTER

July 1, 1954 to June 30, 1955

The Polio Center, located in the Lapeyre Miltenberger Home for Convalescents, now occupies second and third floors. Second floor is being used for isolation and iron lung patients. Third floor is for convalescent patients.

This year a total of one hundred sixty-nine patients were admitted with a daily peak census of fifty-two in September. Of the total admissions, one hundred thirty-seven were diagnosed and treated for poliomyelitis. Twenty-nine admissions were non-polio, and three were diagnosed and treated for Guillain Barre. There were twenty-one respirator cases and five deaths, only three of which were due to polio.

During the summer of 1954, the Polio Center personnel assisted the City Board of Health with their Gamma Globulin distribution program. Through the year they, also, gave their assistance to viral studies done by Dr. Fox's laboratory, Tulane University Medical School. After the introduction of the Salk Polio vaccine, they continued an active part in the Poliomyelitis Surveillance Program.

Continued staff education plus a stable group of nurses and aides have produced a very progressive and effective year of patient care for the Polio Center.

Respectfully submitted by

EVELYN GOURLEY, R.N.
Supervisor

ELECTROCARDIOGRAPH DEPARTMENT

July 1, 1954 to June 30, 1955

The accompanying report shows the work performed in the Heart Station from July 1, 1954, through June 30, 1955. The figures refer to the number of electrocardiograms taken in each month, and to the number of arterial oxygen saturation studies, cardiac catheterizations, angiocardigrams, and cardiac fluoroscopic examinations.

Many sound tracings of the heart were made during the current year but the breakdown for months is not available although the data were placed in the patient's records.

During the year cardiac clinics were conducted every afternoon, Monday through Friday, in order to maintain a closer check on patients with heart disease. There was also a pediatric cardiac clinic which is conducted every Friday.

I. Electrocardiograms

July	2,491	January	2,842
August	2,428	February	2,469
September	2,710	March	2,882
October	2,808	April	2,472
November	2,651	May	2,617
December	2,299	June	2,526
Total		31,195	

II. Arterial oxygen saturation studies 126

III. Cardiac Catheterizations 84

IV. Angiocardigrams 36

V. Cardiac Fluoroscopic examinations 1,226

Respectfully submitted,

LOUIS LEVY II, M.D.

ANNUAL REPORT DEPARTMENT OF ANESTHESIOLOGY AND BLOOD BANK

July 1, 1954 to June 30, 1955

During that period there were 24,000 anesthetics administered throughout the hospital including the accident room, radium therapy department and obstetrical services.

A number of improvements were made in the Department. Dr. Helen Wallace joined the staff as an assistant and supervisor of residents. Dr. Margaret Kerr, who has been with us, continued on throughout the year. At the end of the fiscal year, Dr. Walter Mannheimer who was at the Veterans Administration Hospital resigned from the Visiting Staff to accept employment elsewhere. He, however, will be replaced in the near future by Kenneth Bray, who also will assist with the training of residents. Dr. John Parmley continued to head and supervise the Nerve Block Clinic and instruct the residents in the technique of nerve blocking.

The School of Anesthesia graduated 38 Nurse Anesthetists. Six residents completed their training and accepted excellent positions in Anesthesiology elsewhere.

Additional equipment was purchased; an iron lung and a new E&J resuscitator was installed in the Recovery Room. The Department acquired a Bennett Positive pressure unit, a unit for hypothermic anesthesia, a Liston Carbon Dioxide Analyzer and an Oximeter, for use in thoracic and cardiac surgery.

The difficulties with the constant turn-over in personnel in Oxygen Therapy was somewhat alleviated by a moderate increase in the entrance salary of the technicians in this unit. Civil Service studied further the duties of these individuals and proposed a further extension and revision in classification and salary.

The Blood Bank collected 20,000 units of blood in the Donor Station and dispensed 19,000 units of blood for transfusion. The reaction rate from transfusion was unusually low, being less than 2%, as far as can be ascertained in an institution of this size.

Sincerely yours,

JOHN ADRIANI, M.D., Director
Department of Anesthesia

ANNUAL REPORT LUNG STATION

July 1, 1954 to June 30, 1955

The fiscal year was an important one in the services extended by the Lung Station. There was a continued effort to modernize the equipment in the Lung Station and to expand the diagnostic services in the direction of more precise localization of dysfunction.

Studies of ventilatory function were carried out on 554 occasions during the fiscal year. Predominantly respiratory studies were performed on 99 individuals. Eighteen diagnostic studies of miscellaneous type were done.

The performance of differential pulmonary studies by bronchspirometry has decreased during the last several years and was performed on only six occasions during 1954-55 in comparison with 36 such studies during 1953-54. In large part this reflects the great change which has occurred in phthisiotherapy. It is anticipated that further use of differential lung function will be required as lobar studies become available.

The therapeutic facilities of the lung station were used on 279 occasions. This is a considerable increase over the previous year when every attempt was made to reduce this service because of the lack of personnel for such purposes. Although similar attempts were made during the past fiscal year, it has become increasingly difficult to curtail such therapeutic services when the demand is so general. It would seem from our experience that there is a real need for trained inhalation therapists in the hospital.

Respectfully submitted,

JOHN H. SEABURY, Director
Lung Station
Charity Hospital of Louisiana
at New Orleans

ANNUAL REPORT OF THE TUMOR REGISTRY

July 1, 1954 to June 30, 1955

During this period of time the name of the Registry was changed from "The Cancer Registry" to "The Tumor Registry."

The case load has increased from 9,388 cases as reported in the preceding year to 11,224 cases. This represents the number of cancer cases diagnosed at this hospital since January 1948.

VOLUME OF CASES BY YEAR OF DIAGNOSIS

1948	1,509
1949	1,664
1950	1,584
1951	1,487
1952	1,586
1953	1,711
1954	1,683
Total	11,224

RATIO OF CASES BY SITE

The cases have been broken down into 51 cancer site categories. Six of these categories include over 57% of the cases.

Skin	1,636
Cervix	1,487
Lung	896
Breast	871
Prostate	830
Stomach	711
Total	6,431

NUMBER OF CASES BY RACE AND SEX

White	5,734	Males	5,950
Negro	5,490	Females	5,274
	11,224		11,224
White Males	3,486		
Negro Females	3,026		
Negro Males	2,464		
White Females	2,248		
	11,224		

ACTIVITIES

An exhibit was arranged and displayed at the meeting of the Louisiana State Medical Society during March 1955 and subsequently at the Louisiana State University School of Medicine and Tulane University School

of Medicine. The exhibit included charts showing the number of cases by parish residence, the number of cases by year of diagnosis and site of disease, the number of cases traced out of state by states, illustrated forms, procedures, activities, et cetera.

As a result of the exhibit, the Louisiana State Medical Society went on record as "supporting extension of the type of Cancer Registry which has been established at Charity Hospital in New Orleans and each hospital in the State be urged to consider the matter of establishing a Cancer Registry." Subsequently on May 17, 1955, the Louisiana State Medical Society sent a letter to this effect to all hospitals in the State and requested that they consider patterning such a Registry after the prototype registry already set up in Charity Hospital at New Orleans. Within a short period of time requests were received from a number of hospitals through letters and visits for sample forms, procedures, et cetera. The Louisiana Hospital Association requested information on the subject for publication.

In May 1955 the Louisiana Cancer Reporter included an article with a picture entitled "Louisiana boasts one of early Registries to keep score in Medicine versus Cancer."

In addition to giving out general information, statistical data has been furnished doctors for clinical research, for teaching, and for demonstration.

INFORMATION AVAILABLE FROM THE REGISTRY

Records include case histories with follow-up information on all cases of cancer diagnosed at Charity Hospital between January 1, 1948 and the present. All pertinent facts from these records are coded and the information punched on cards which when run through the sorter machine quickly yields valuable information which would otherwise take weeks of reviewing individual patient records.

Respectfully submitted,

(MRS.) MARION WOGAN, Director
Tumor Registry

ANNUAL REPORT PHARMACY DEPARTMENT**July 1, 1954 to June 30, 1955**

Special Prescriptions Filled	127,740
Stock Prescriptions Filled	69,177
Narcotic Prescriptions Filled	8,771
Tuberculosis Prescriptions Filled	451
Total Prescriptions Filled	206,139

In the general manufacturing laboratory, a total of 32,968 gallons were made. These included syrups, elixirs, liniments, lotions, mixtures, tinctures and laboratory stains. 1,030 pounds of ointments and 1,625,000 tablets were also manufactured. Total cost of operation, including labor, was \$26,792.36. Had these same items been purchased, it is estimated the total cost would have been \$127,214.54.

In the solution room, 114,619 liters of sterile saline, dextrose, NaK, etc., were produced as well as 86,155 bottles of procaine, normal saline, and other sterile solutions of varying sizes and strengths. Total cost of operation, including labor, was \$41,623.51. Had these same solutions been purchased, it is estimated the total cost would have been \$151,195.15.

Respectfully submitted,

SYLVIA CHIN-BING,
Chief Pharmacist.

ANNUAL REPORT

MEDICAL SOCIAL SERVICE DEPARTMENT

July 1, 1954 to June 30, 1955

A total of 106,172 patients were given help of some type. This is a decrease of 42,000 over the previous year. The reason for the drop in the number of patients served is that the Department has been relieved of a large volume of correspondence with the Department of Public Welfare. This has been a very positive development for the Department, since it means that the workers are able to give more time and attention to individual patients. Of the total number of patients given assistance, permanent records were kept of 51,969 cases, while 54,203 were not recorded. In the latter group of cases it is certain that permanent records would have been of value in an appreciable number of instances, but because of pressure of time it was impossible to keep them.

The Department has several small funds available which are used to help patients meet some of their medical needs. During the year, \$8,686.34 was spent for 3,149 patients. The money was used as follows: \$6,207.84 was used for medication, \$876.25 for transportation, \$526.07 for temporary maintenance, and \$1,076.18 for appliances. The sums of money available to meet these needs of the patients are very small in comparison to their total needs, particularly in relation to medication, so expenditures are limited strictly to urgent emergency situations.

During the past year the Department has operated with an average of seven vacancies. However, the rate of turnover has greatly decreased which, no doubt, is due to the new pay plan which went into effect in July, 1954. Even with increased salaries it has not been possible to fill vacant positions because of a shortage of trained social workers. The department is set up to have 33 social workers—25 medical social workers and 8 psychiatric social workers. There was an average of 24 full time and one to two part time workers to give service to patients during the year. These workers are supervised by five supervisors. The sixth supervisory position is vacant at this time. This has meant that the remaining supervisors have had to assume additional work along with their already overcrowded schedule. Besides supervising the social workers in the Department, each supervisor has other responsibilities such as the administration of the unit which determines eligibility, providing services for Charity Hospital employees, and serving as liaison with the schools of social work at LSU and Tulane. The clerical staff consists of 15 workers, including typists, stenographers, file clerks, receptionist, a driver for the station wagon and a bookkeeper.

It is also the responsibility of the Department to determine, on a selective basis, the eligibility of patients applying for treatment. The unit which performs this function consists of nine interviewers, who are supervised by a member of the supervisory staff of the Department. Obviously a staff of this size could not investigate each patient, so emphasis is placed on screening out the most obviously ineligible ones. During the current year, 24,632 patients, 12% of the total number of patients applying for treatment, were interviewed. Of these, 5,264 were found to be ineligible. The distribution of ineligible patients according to service is as follows: Clinics 1,306, Wards 580, Accident Room 3,378.

Since investigations are not made on a 100% basis, it is inevitable that some ineligible patients are not detected. Data are not available as to the actual percentage of the total number of patients treated who are ineligible. However, from time to time "spot checks" have been made on certain services, in which 100% investigations have been made. The highest percentage of ineligibility discovered was 4%. It may be that it would be worthwhile to enlarge the unit, particularly to assign a full time supervisor and additional clerical staff. The program as now in effect uncovers a high percentage of ineligibility among the patients investigated, since the most obviously ineligible patients are interviewed. Therefore, as the base of selection is broadened, the percentage of ineligibility discovered becomes less and less. It has been estimated that, in order to investigate all of the patients treated, the unit would require a staff of 70 to 100 interviewers, in addition to at least six supervisors and ten clerical workers. Whether such an expenditure would be justified in view of the probable low overall percentage of ineligibility is questionable.

During the month of November, the Department participated in a study of the functions of Social Service Departments being done jointly by the American Hospital Association and the American Association of Medical Social Workers. By studying the actual day to day activities of medical social workers on the job, the joint committee hopes to be able to arrive at a uniform definition of the role and responsibilities of the social worker in the hospital setting. It is anticipated that these findings will be helpful in planning and evaluating the services provided by social service departments.

In January, this Department has the opportunity to make use of the services of the Consultant on Practice of the American Association of Medical Social Workers. These services are made available to Social Service Departments in hospitals without cost to the hospitals as a part of the Association's program to improve standards of professional care. The consultant is in a position to offer particularly valuable help in analyzing and seeking solutions to problems relating to the practice of casework in the medical setting, because she visits hospitals all over the country, and has a sound knowledge of what is being done in other communities. The consultant spent nine days in this Department, discussing with the director and supervisors staff development, supervisory programs, methods of keeping records and statistics, and the like. The discussions were stimulating and helpful, and the consultant had several constructive suggestions to make. It was interesting to learn that the problems of this department are similar in many ways to those of the social service departments in hospitals in other parts of the country.

For several years one of the most serious problems facing the department was the amount of the workers' time that was used to send medical reports to the Department of Public Welfare. In order to establish a person's eligibility, that agency needed detailed medical information to prove disability. This department had assumed responsibility for this function, which originally entailed cooperative work with the Department of Public Welfare and individualized attention to the patient. However, the volume had increased to such an extent that work of this quality was not possible, and in most cases the workers were actually only able to copy material from the medical record, which does not require the skill and training of a social worker. At the end of the last fiscal year it was estimated that the workers were spending at least 90% of their time in sending these reports, with the result that they were not able to give the

needed services to patients. The Department of Public Welfare has now, however, taken over the responsibility for securing the medical information needed for certification, and has established a unit in the hospital which handles all correspondence relating to eligibility. This has relieved the staff workers considerably, so that they are now in a position to give more direct and individualized help to patients.

Respectfully submitted,

MARIGAYLE H. HART

ANNUAL REPORT MEDICAL AND PATIENTS' LIBRARY

July 1, 1954 to June 30, 1955

Staff

Volunteer workers were very helpful in assisting the full time library staff. The volunteers assigned to the library worked a total of two hundred and two and three quarter hours during the year 1954-1955.

Reading Room Activities

The attendance in the reading room continued to be high in number. Doctors, both visiting and staff members enjoy relaxing atmosphere. They consult often the fine medical journals which are so available. They derive a great deal of pleasure from the many periodicals and books which are bought for their use. Displays in the reading room are changed often. These help to interest the doctors in the new books as well as letting them know what is in the collection in the library. Information is given gladly over the telephone. Suggestions are always welcomed and many requests are fulfilled.

Ward Activities

Daily schedules of the staff and volunteers are carried out on the wards. Volunteers are given training before being sent on the wards. All books are checked and magazines examined before they are sent on the wards. The services of the library are appreciated by the patients. Their morale is helped a great deal. The patients showed their appreciation by donating magazines and books during the past year.

Last year our gifts increased. Many pocket books, cloth bound books and hundreds of magazines came from churches, business houses, individuals and the staff here at Charity. We have firms which send regularly hundreds of magazines each month which are distributed on the wards.

Following are some of the activities of the members of the Charity Hospital Guild for the Hospital patients.

Forty complete hand-made layettes; large amount of used clothing; new and used shoes; books, magazines, scrap books, picture puzzles, games, and toys.

At Christmas, 430 dolls and toys were donated and given to the children at a party given by Mrs. Walter Grunning who is a Guild member and Chairman of the doll and toy committee.

Two parties, one at Christmas and one at Easter, were given to the patients in the John Dibert male wards by the Magnolia Branch of the Louisiana Society of which Mrs. Joseph E. Snakenberg is the President. This Society also gave four pounds of coffee weekly for the patients in Dibert and Breaux buildings; and at Easter time, they gave to the seventh floor Orthopedic patients, Easter eggs and fruit. The members of this Society are also members of the Guild. The entertainment, gifts, and refreshments were deeply appreciated and enjoyed by all.

AMERICAN CANCER SOCIETY

This Society furnishes its gauze to make special dressings. These dressings are given to the outside patients by the Chairman, Mrs. Louis Leggio.

HONORARY PRESIDENT	Mrs. C. Warren Gilmer
SECRETARY	Mrs. Arthur Bernard Brown
CHAIRMEN IN CHARGE OF MEETINGS:	
MONDAY	Mrs. George Chehardy
	Mrs. Arthur Esler
TUESDAY	Mrs. Charles Richard
	Mrs. Davis Barr
WEDNESDAY	Mrs. J. M. Dazet
	Mrs. John D. Nix
THURSDAY	Mrs. L. P. La Poutge
	Mrs. Charles Chehardy
FRIDAY	Mrs. John D. Nix
	Mrs. George Chehardy
	Mrs. Frank Hippler
CHAIRMAN OF THE DOLL	
COMMITTEE	Mrs. Walter Grunning
CHAIRMAN OF THE LAYETTE	
COMMITTEE	Mrs. Charles Richard
THURSDAY CHAIRMAN OF THE	
COLORED GROUP SARAH	
BROWN UNIT NO. 6	Mrs. Evie Rossette

In closing this report, may I say that in each undertaking of the Guild, every member has given one hundred per cent cooperation.

We wish to express our heartfelt thanks to one and all for helping to make this past year of the Guild a very successful one.

MRS. C. WARREN GILMER, Honorary President.
NELLIE BOUDREAUX.

ANNUAL REPORT
PEDIATRIC RECREATIONAL PROGRAM
SPONSORED BY THE COUNCIL OF JEWISH WOMEN
NEW ORLEANS SECTION
July 1, 1954 to June 30, 1955

Physical Setting

A large and more adequate play room and office space was allocated to the Recreational Program during the past year. The Ward W-903 is large, airy and light, and has been made attractive for the children by the addition of planted window boxes and birds and gold fish. This has been a marked improvement because it gives a large play area for the children and adequate space for arts and crafts projects. It enables us to have parties and programs in the play room. In an administrative way it has been more satisfactory in every way, especially in giving closer supervision to play room activities and supervision of volunteers.

Financial Assistance From Charity Hospital

In the past fiscal year the Charity Hospital Board approved the request from the Council of Jewish Women, New Orleans Section for some financial subsidy. The Board agreed to allocate up to \$100.00 monthly for equipment, supplies and craft material. The purchases are made through the Hospital's Purchasing Department and the requisitions have been approved through regular channels. The Hospital has supplied all of the craft supplies used during the year, which included plastic gimp, model trains, planes, boats, cars, etc.; leather craft, wire craft and basket weaving materials, scissors, paste, construction paper, shellac, paint and other necessary items.

The Hospital shop has renovated the large tables and built four small tables; renovated the art easels and built shelves. Other purchases included office supplies and repairs for the television sets and the typewriter.

Volunteers

Volunteer participation has been excellent. The Program functions with regularity and with a sufficient number of volunteers to operate the daily Programs—716 volunteers served 5,037 hours.

Program

The daily play room and ward activities are from 9:30 A.M. to 11:30 A.M. and 2:30 P.M. to 4:30 P.M. On Monday and Wednesday evenings the Programs are from 5:30 P.M. to 7:30 P.M. The play room activity includes free play, music, games, arts and crafts and story telling. The Ward recreation includes toy distribution, and the distribution of record players, radios and televisions, also bedside supervision of arts and crafts with particular attention to individualized needs.

Craft Classes for Teenagers

Summer craft classes for teenagers was a new project. This was closely coordinated with the teenage school teacher and proved a very popular program. We hope to be able to expand and improve this project.

Coordinated Programs and Parties for the Ninth Floor

All parties and programs on the Ninth Floor are coordinated through the Recreational Program. Routine birthday parties for hospitalized children are given by the volunteers of the Recreational Programs. Presents are provided by the Program and favors and prizes for the entire Ward are used in addition to the birthday cake and punch supplied by the Hospital. For other parties and donations provided by outside groups see the attached list.

Training and Orientation

Volunteer training included routine orientation for volunteers and on the job training in various arts and crafts. Two formal arts and crafts classes with volunteer instructors were held and included addresses by Pediatricians and Nurse Supervisors. A training course was given for the evening group with instruction in the use of the moving picture projector and equipment and talks by Nurse Supervisors.

Publicity

Publicity for the year included regular spot radio announcements, newspaper pictures and stories for Easter parties, and Xmas parties and routine publicity for recruiting. A pictorial poster depicting the play program's activities was displayed at the National Meeting of the Council of Jewish Women.
